FOCUS AUDIO

Master Series

Due to continuous research and development, Focus Audio reserve the right to amend or change any specification without notice.

Ultimate Musical Instrument

Steeped in the passion for accurate reproduction of sound and the ultimate enjoyment of music's many pleasures, Focus Audio, located at the center of the high-tech region of Ontario Canada, has been designing and building high performance loudspeakers for discerning audiophiles since 1993.

For years we have been dreaming of producing the ultimate expression in the art of loudspeaker design: one that captures the life, scale and majesty of the original performance, in all its glory.

And now we bring you, the Master Series: a new flagship reference standard by which all others will be judged by.

Created by our musical passion and relentless pursuit of perfection, the Focus Master Series is a giant leap forward in performance as emotionally involving as live music.

The Master Series immerses you in the soul of the music with unequalled coherence, lightning fast transients, wide and powerful dynamics, life-like dimensionality and the utmost in accurate soundstaging. Music simply appears as if you could reach out and touch it.

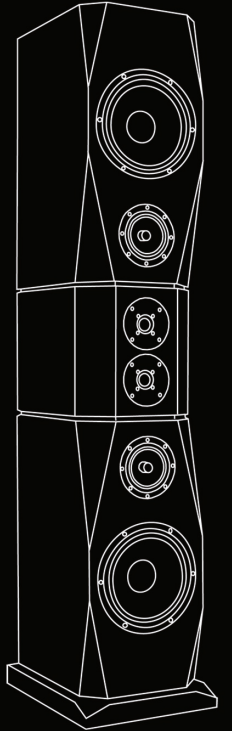

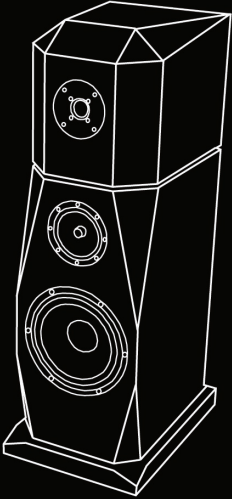

The Master Series rose from the drawing boards with textbook principles and advanced computer aided design, and graduated to its lofty performance levels with the very best materials and cost-no-object components, hand matched for perfection.

While our engineers start with the finest in computer aided designs, we recognize that computers can't design loudspeakers that breathe life into music. It takes years of trained listening, tuning and voicing to achieve the level of perfection found in the Focus Master Series.

Each and every Master Series loudspeaker is lovingly hand built, tested and auditioned before it ever reaches your home. No other design criteria are needed to build a product that will reach out and touch your soul in exactly the way the musicians intended. Close your eyes and let the music envelop you.

The journey to build a reference standard like the Master Series is long and difficult, but now we are proud and excited to share the beauty, the passion and the most of all, the music. Come listen and see for yourself.

The Focus Master Series, a true reference standard that brings you emotionally closer to the music than anything else in your home.

Master 2.5

Drivers: One 11" woofer, one 5 1/2" midrange, one 1 1/8" tweeter
Frequency Response: 20Hz - 25 kHz +/- 3dB
Sensitivity: 88dB/2.83V/1m
Impedance: 8 ohms
Recommended Power: 50 - 500 W
Size: 43" x 13" x 18" (HxWxD)
Weightt: 150 lbs per channel

Master 3

Drivers: two 9" woofers, two 5 1/2" midranges, two 1 1/8" tweeters
Frequency Response: 25Hz - 25 kHz +/- 3dB
Sensitivity: 92dB/2.83V/1m
Impedance: 4 ohms
Recommended Power: 50 - 1000 W
Size: 64" x 11" x 17.5" (HxWxD)
Weightt: 175 lbs per channel

Master 2

Drivers: two 11" woofers, two 5 1/2" midranges, two 1 1/8" tweeters
Frequency Response: 20Hz - 25 kHz +/- 3dB
Sensitivity: 92dB/2.83V/1m
Impedance: 4 ohms
Recommended Power: 50 - 1000 W
Size: 71" x 13" x 18" (HxWxD)
Weightt: 220 lbs per channel
